

StructCrew

AEC TALENT PARTNER

CLIENT TOOLKIT

Capability Statement

A concise view of StructCrew's AEC hiring capabilities and delivery model.

STRUCTCREW | AEC HIRING, HANDLED

Architecture | Interiors | Construction | BIM

AT A GLANCE

A specialist partner for built-environment hiring.

StructCrew is designed for teams that need technical relevance, portfolio awareness and a disciplined candidate experience.

Primary focus	Client types	Role families
Architecture, interiors, construction and BIM	Studios, developers, contractors, PMCs and design-build teams	Design, documentation, visualization, site and project leadership

We support one-off priority searches, multi-role hiring windows and ongoing recruitment partnerships.

CAPABILITY MAP

What the search can cover.

Design talent Project architects, design leads, interiors and visualization specialists.	Technical delivery Revit, documentation, BIM coordination, detailing and production roles.
Project execution Site supervision, project coordination, QS and safety-adjacent roles.	Leadership Design managers, BIM leads, project leads and senior operations support.

DELIVERY GOVERNANCE

A controlled process for busy client teams.

- One clear brief, including role criteria and decision-makers.
- Defined update rhythm and a transparent shortlist format.
- Candidate engagement that protects your employer brand.
- Interview and offer-stage coordination aligned to your internal process.

Supporting documents are available in the StructCrew Client Toolkit, including scope examples, a hiring brief template and interview scorecard.
